CBS OUTDOOR WILL REFUSE TO ACCEPT ANY DELIVERIES THAT DO NOT CONFORM TO THESE SPECIFICATIONS

DELIVERY DEADLINE AND POSTING CYCLE

Posters must be produced to the exact specification set out below and delivered 14 calendar days before the 'In-charge' date of the campaign. Campaigns are then posted on a 9 calendar day cycle (excluding Bank Holidays) which commences before the 'In-charge' date.

Please note: CBS Outdoor is not liable for compensation claims against any campaign where posters have been received after the delivery deadline. All posters received after the delivery deadline will not be posted until the next available posting cycle for this site type.

COPY APPROVAL

Before posting can commence, every London Underground campaign must be submitted to CBS Outdoor for copy approval. This is to ensure that the Codes of Practice outlined by our franchise partner are being upheld. See **Copy Approval** on page 3.

DISPLAY AREA

For all site types that are fixed into frames, the specification will give the Overall Size and the Display Area. Please keep all important text and images within the Display Area but feel free to bleed the background colours/images up to the Overall Size. Please be aware that if an artwork has text that has been created to the Display Area it will butt-up to the frame. If this is not the desired effect then please move the text even further inside the Display Area.

Please note: CBS Outdoor strongly recommends that you do not use the frame as a 'cropping device' for corporate logos as 100% accuracy cannot be guaranteed as not all London Underground sites are framed.

MATERIALS

Posters will not be accepted if printed on any photographic or vinyl materials. CBS Outdoor will also refuse to accept any posters that have been laminated or encapsulated as neither of these processes conform to the required fire regulations.

CBS Outdoor insists that advertisers only use **120gsm blueback poster paper** of the following brands: **AHLSTROM** and **VALCHIAMPO**. These brands cover a comprehensive range of papers that are suitable for Litho, Screen and Digital printing.

DIGITAL PRINTING

If you intend to digitally-print your posters, please contact the CBS Outdoor Production department on 020 7482 3000 for further advice.

POSTING TRIALS

Variations in the compatibility of ink, paper and drying method can cause a reduction in the paper's durability and may cause the paper to tear during posting. Therefore each ink, paper and drying combination should be thoroughly tested for suitability before commencing with poster production. Please contact the CBS Outdoor Safety, Quality & Environment department on 020 7482 3000 for assistance with posting trials. CBS Outdoor will not accept responsibility for posting failures that may occur due to ink, paper or drying incompatibilities.

SPARE POSTERS

CBS Outdoor will always require additional 'spare' posters to refurbish campaigns.

For a campaign of up to 4 weeks, initial deliveries should include 30% spares.

If the campaign is longer than 4 weeks, sufficient spares should be provided to re-post the campaign every 4 weeks.

For a campaign of less than 20 sites, contact CBS Outdoor Customer Service on 020 7482 3000 for the quantity of posters to be produced.

TRIMMING AND FINISHING

Posters must be trimmed to the Overall Size within the stated tolerances: Width = 6040mm to 6060mm. Depth = 3028mm to 3048mm.

All 12 sections must be printed on individual sheets, measuring 1524mm deep x 1010mm wide with additional UNPRINTED overlaps suitable for posting left-to-right and top-to-bottom. See below for more details.

OVERLAPS - Please refer to the line drawing at the beginning of this specification.

Panels 1, 2, 3, 4 and 5 will require a 10mm UNPRINTED overlap on the right-hand edge.

Panel 6 will not require any overlaps.

Panels 7, 8, 9, 10 and 11 will require a 10mm UNPRINTED overlap on the right-hand edge and the top edge.

Panel 12 will require a 10mm UNPRINTED overlap on the top edge.

POSTER COLLATION AND PACKING

All posters must be delivered flat on a pallet.

Please collate a complete 48 Sheet in the sequence shown on the right.
(The sequence relates to the line drawing at the beginning of this specification).
Stack the collated posters flat on a pallet one-on-top-of-the-other with a tab inserted in between each collated poster. The pallet must be bound securely, ensuring the poster edges are fully protected to avoid damage in transit.
A poster layout must be attached to every pallet.

This must clearly identify the following information: campaign reference(s), paper stock, paper weight, print method, ink details, drying method and the dimensions of the finished posters. CBS Outdoor will also require the name of the person who carried out the Quality Assurance Checks for that particular consignment.

DELIVERY NOTES

Every consignment of posters delivered must have a Delivery Note attached indicating the advertiser, the number of designs, a title for each of the designs and the quantity of each design.
